WORK EXPERIENCE

Norvik Tech S.A.S., Medellín, Colombia (Remote)

Apr 2022 – Aug 2026

Full Stack Developer

- Delivered 10+ production projects for clients in Colombia, the US, Canada and Spain (real estate, fintech, logistics, corporate compliance) by working directly with client teams on scope and owning architecture and delivery in React, Next.js, React Native, TypeScript, Node.js/NestJS and PostgreSQL.
- Built the frontend of Indahouse, Colombia's first real estate tokenization platform, and of EthicVoice, an accessible UI in 75+ languages for an ISO 27001-certified whistleblowing platform.
- Accelerated feature delivery by 70%+ while keeping code quality and test coverage, by adopting an AI-first workflow (Claude Code, GitHub Copilot, custom LLM agents) for code generation, refactoring and documentation.
- Cut deployment time by 60% and improved frontend performance by 80%, by setting up CI/CD pipelines with AI-assisted code review and profiling and optimizing critical code paths.

Ganado Co., Colombia (Remote)

Jun 2025 – Jun 2026

Co-founder & Project Lead Developer

- Launched Colombia's livestock-management platform on iOS, Android and desktop, by owning the full technical stack solo: React Native/Expo, Tauri, Node.js, Prisma and PostgreSQL.
- Enabled field operations without internet connectivity, by designing an offline-first architecture for a platform managing thousands of cattle.
- Delivered end-to-end supply-chain traceability, by designing and implementing a blockchain traceability system.

Makaia, Medellín, Colombia

Oct 2021 – May 2022

Frontend Developer (Bootcamp)

- Delivered 12+ projects for clients across industries, by building React.js apps that consume REST APIs in cross-functional Scrum teams.
- Built a real-time analytics dashboard serving 10,000+ daily users, using Node.js and Next.js.
